A Hard Fought Battle.

Fifteen Hundred Dervishes Meet Death.

THE WHOLE ARMY WIPE OUT.

Wad-El-Juni and his Principal Chiefs Killed—Only Three Hundred Fighters Men Left—A Thousand Prisoners Captured—Other Dispatches from One, the team.

Cairo, Aug. 5.—Saturday morning Gen. Grenfell sent all the cavalry under his command, including the Twentieth Hussars, to make a reconnaissance in force of the enemy's position. The cavalry speedily drove the dervishes out, and as soon as the general saw the position of affairs he brought up two infantry brigades and a fierce encounter ensued.

The result was the complete defeat of the dervishes and Wad-El-Juni, their leader, and all the principal chiefs who had accompanied him were killed. The dervishes were slaughtered wholesale, at least 1,400 meeting their death. The rebels fought well, making many bold charges with their usual impetuosity, but they were not able to withstand the onslaught of the cavalry and fire of the Martini-Henry rifles.

The Egyptian troops and cavalry captured many rifles, and they also took one brass gun and numbers of spears and a quantity of standards. The Egyptian loss is not accurately known now. Lieut. B. Cotton, of the Shropshire regiment, is reported to be dangerously wounded, while Maj. A. Hunter, of the Royal Lancaster regiment, is wounded slightly. This complete victory will put a stop to the endless dissatisfaction now rife in upper Egypt and in the front.

The latest telegram from the front states that with the exception of about 300 men all the fighting dervishes are killed. Numbers of women and children are now coming into our camp at Toski. Abdul Habini, second commander, was killed. The result of the day's operations was most successful, as the dervish force is practically annihilated. Only a few small parties are still northward of Toski. All the Egyptian troops returned to camp, and the remains of the enemy are scattered across the plain for eight miles from the river going south. The news of the victory was received with great enthusiasm, and at the theater Kheifid an anthem was played.

Gondobas are following the scattered remnants of the dervish force along the river. The dervishes fought desperately, throwing themselves upon the advancing columns repeatedly, and refusing quarter. The crisis of the battle was reached when the dervishes attempted to turn the extreme right of the Egyptians. The steadiness of the troops was admirable. The cavalry here swept through the lines of the enemy, breaking them up. The cavalry pursued the retreating rebels for miles. Gen. Grenfell ordered the gondobas to pick up fugitives and wounded.

The number of casualties suffered in the engagement by the British and Egyptians is surprisingly small. Their total loss is seventeen killed and 130 wounded. A thousand dervish prisoners were captured.

The khedive has sent his congratulations to Gen. Grenfell upon his decisive victory at Toski.

Gen. Grenfell has decided that the permanent occupation of Sartus will be necessary to protect the frontier from incursions such as the one just repulsed. A movement upon Dongola he deems useless unless the government assent to the view expressed by all the English generals that Berber should be held as the true key to the Soudan.

Account of the Battle from London.

LONDON, Aug. 5.—England is drawing a long breath of relief after the news of the complete route of her enemies of Egypt on the banks of the Nile. Further details of the battle received here describe it as a scene of revolting slaughter, such as could scarcely occur where both combatants are civilized soldiers. Nor does the responsibility for the butchery rest upon the English troops and their Egyptian allies. Long after the fate of the day had been decided, after all hope of recovering their lost ground must have been abandoned by the fanatical dervishes, they continued to hurl themselves upon their foes only to be mercilessly mowed down as ripe grain before the reaper. They refused all quarter and gave none, but with a grim determination that knew but two issues—a fight—victory or death—they fought as bravely and as stubbornly when the deadly fire of their enemies had cut great swathes in their ranks.

It was while leading the scattered remnants of his brave warriors in this forlorn hope that the dervish leader, Wad-El-Juni, fell pierced by a bullet in his brain. His followers, nothing daunted by his fate, dashed themselves over and over again upon the pitless and unbroken line of rifle barrels in front of them, and kept up the fight long after every vestige of organization among them had been destroyed, and when nothing was left for the scattered fanatics but to sell their lives as dearly as possible. So it came that fully one-half of the invader's force was left dead upon the field. The small number of fighting men which Wad-El-Juni brought into the engagement is a complete surprise. All estimate heretofore credited him with an available force of no less than 6,000 men, while it turns out that he could not, at any time, have had more than half that number. The whole dervish force is now completely wiped out, and all immediate danger of an invasion from that quarter is at an end.

Results of France's Second Ballot.

PARIS, Aug. 5.—The results of forty-

three second ballots in the French elections yesterday show that twelve Republicans, thirty Conservatives, and one Bonapartist have been elected. The successful Bonapartist is M. Laguerre, member of the chamber of deputies, and he was elected in La Rochelle.

A False Alarm.

PARIS, Aug. 5.—The report that the government had ordered all three of the military classes of Serbia to minister was incorrect. It is the intention of the government to propose the adoption of a new militia system in October.

Starting the 1st of August.

LEXINGTON, Aug. 5.—Emperor William and the Prince of Wales, with a company of the English war vessels, Maclaren, and after inspecting the monster ironclad, went on board the little torpedo boat commanded by Prince George of Wales. The latter, who, in conformity with the rigid discipline of the service, had remained on board his vessel all night, was highly complimented by his cousin, the emperor, on the effectiveness of all the appliances on board the tiny little craft.

From England Direct to Spain.

MADEIRA, Aug. 5.—A rumor has gained currency here that Emperor William, of Germany, on leaving England, will sail directly for Saint Sebastian, to visit Christina, queen regent of Spain.

Battle in Crete.

LEXINGTON, Aug. 5.—The Turks have attacked and dispersed a body of insurgents near Canea, Crete. A number on both sides were killed and wounded.

THE INDIANS SIGN

Eleven Million Acres of Land Will Soon Be Thrown Open for Settlement.

STANDING ROCK, Dak., Aug. 5.—Much to the surprise of everybody at the agency, John Grass, Mad Bear, Big Head and their bands have signed the treaty and now 600 names are all that are necessary for the opening of the reservation. There was a wild scene when Standing Bull and his band rode up in war costume and attempted to drive the friendly Indians from the council, but he was soon suppressed and the Indians under the three chiefs named followed them in signing.

Four hundred signatures were secured and the commissioners are elated over the prospect for success. Chief Gall is still hesitating, but it is believed that he will consent within a few days. There is now every prospect of success. It is reasonably safe to predict that the 11,000,000 acres of land will be opened for settlement.

Epidemic of Bloody Flux.

CHICAGO, Aug. 5.—A herald special from Carthage, Ill., says: The epidemic of bloody flux at Warsaw is unabated. Five deaths occurred Saturday and it is feared that many of the invalids will not recover. Dr. Hunt has fifty or seventy-five cases of bowel complaint. He considers the epidemic very serious and says it is caused by impure water and the extremely hot days and cool nights. It is feared that the disease has reached Hamilton and Kokonk. No less than sixteen deaths have occurred in Warsaw from bloody flux since last Wednesday. Warsaw people resent any attempt to obtain facts, and it is utterly impossible to gain the number of the deaths.

Blaine's New Home.

WASHINGTON, Aug. 5.—Secretary Blaine's new home on Lafayette square is rapidly undergoing improvement and will be ready for occupancy by the 1st of October. The artist has endeavored to conform to the original simplicity of design in the interior arrangement of the old mansion which was built more with the view to comfort and space than elaborate ornamentation and display. The addition of a number of broad windows at the side facing the south has added greatly to the brightness of the rooms on that side of the house and gives glimpses of the fresh green of the extensive grounds beyond.

A Sail Boat Capsized.

PEMBROKE, Mass., Aug. 5.—A sail boat containing five persons was capsized on Silver lake yesterday. Fred Allen, of Brockton, and Marcus Howe of East Bridgewater, were drowned. The others were rescued in an exhausted condition but will all recover. Both of the drowned men were employed at Tyler's carriage factory at Whitman, Mass. Allen was 31 years old and leaves a widow. Howe is 23 and unmarried.

A Larger Sails Out.

YORK, Pa., Aug. 5.—Frederick Wrecker, a tanner of this city, has disappeared after having confessed that he had forged the name of Jacob Beach to notes to the amount of \$8,600. The notes are held by the Western National City and York County National banks. He left his home on Friday last, and his whereabouts are unknown. Before leaving he promised to make restitution.

Killed in an Elevator Shaft.

WASHINGTON, Aug. 5.—Charles H. Taylor, an employee of the Washington Market company, fell down the elevator shaft of the market building late last night and was instantly killed.

Spokane Falls, W. T. Burning.

SAN FRANCISCO, Aug. 5.—The dispatches from Spokane Falls, W. T., say that the town is burning. The wires have gone down, and no particulars can be obtained.

The Black Diamond.

Her Captain Refuses to Obey Our Laws.

A CASE OF OPEN REBELLION.

Instead of going to Sitka as ordered the soiled vessel goes to Victoria and places herself in British Possessions. The United States will certainly demand her return and England will likely refuse.

Victoria, B. C., Aug. 5.—Victoria is in a great state of excitement, the cause being the arrival of the Black Diamond. She came into port Saturday evening and dropped anchor. She had one American seaman on board, John Hamson. He was appointed special officer by the captain of the ship, and ordered to take the Diamond to Sitka. Capt. Owens, of the Diamond, told Lieut. Tuttle he would not sail for Sitka, but would bring his vessel to Victoria. If they wanted the Diamond to go to Sitka they would have to put a stronger crew on than the schooner's aboard.

The Rush steamed away, and Owens sailed toward Omeaha, thinking that there were British warships in that vicinity and intending to demand protection. He sailed into Omeaha harbor and boarded a schooner from Port Townsend. He was told there were men of the American squadron in the vicinity. The Rush took the Diamond's seamen, about eighty, but left everything else.

The American men have made an official report to Vice-American Consul Marvin, who has telegraphed the facts to Consul Stevens of San Francisco. Hamson says he was well treated by the crew of the schooner. The greatest satisfaction is felt here at the escape of the Diamond. It is thought the United States will certainly demand the return of the schooner, which the British government dare not give up. It will bring the matter to a speedy conclusion.

The News reaches Washington.

WASHERTON, Aug. 5.—A representative of the United Press called the attention of Acting Secretary of State Wharton to a dispatch published in a New York paper to the effect that the schooner Black Diamond instead of going to Sitka when ordered to that port by the commander of the Rush sailed direct for Victoria and that one man constituted the prize crew placed on board by the commander of the Rush the prize crew was helpless to prevent the Black Diamond's escape.

Secretary Wharton had not seen the dispatch. When told of its contents he said that the case, if presented carefully, was most extraordinary, and he would not venture an opinion as to the course the state department could or would pursue.

Woman Fatally Beaten.

BIRMINGHAM, Ala., Aug. 5.—At Emin's ridge, two miles from this city, last night, a crowd of negroes, men and women, were sitting in the yard of Dennis James, Wash. Earle became very angry at something said by Annie Thompson. He seized the woman around the waist and hurled her across a wheelbarrow standing in the yard with such force that her neck was broken. Then he beat the woman about the head and face severely. She cannot recover. Earle made no effort to escape, and was lodged in jail.

Serge to be Avenged.

PITTSBURGH, Pa., Aug. 5.—A special from Ellsworth, W. Va., says: The coroner's jury summoned by Justice Withrow to investigate the recent lynching of the negro Carter will probably report tomorrow. Some sensational developments are to be looked for, and it is said very prominent men will be arrested. Only twenty men were concerned in the lynching. Constable L. Reynolds, the man Carter was supposed to have killed, will recover.

Victims of a Boiler Explosion.

PITTSBURGH, Aug. 5.—The explosion of a boiler at Gambier & Huey's coal works, near McKeesport, Pa., Saturday, completely wrecked the boiler and engine house, and instantly killed the engineer, Louis Erb. Three others, John and Philip Harvey and an unknown young man, were badly scalded and may not recover. Portions of the boiler were carried a quarter of a mile, and Erb's body was terribly mangled. The cause of the explosion is not known.

Return of the Alaska Committee.

CHICAGO, Aug. 5.—Senators Dawes, of Massachusetts, and Stockbridge, of Michigan, of the committee to investigate Indian affairs in Alaska, arrived in the city yesterday after five weeks' traveling in Alaska. While they declined to talk freely of the probable result of their mission, they said that the seal fisheries from piracy. The question of the closed sea need not be raised for this purpose. Mr. Hale does not see any reason to expect trouble with Canada or England over the Behring sea matter, to the contrary he thinks all the government's concern will co-operate to prevent the seal fisheries from piracy.

The question of the closed sea need not be raised for this purpose. As for Mr. Blaine's views, he had no means of knowing them.

A Woman's Throat Cut by a Burglar.

INDIANAPOLIS, Aug. 5.—The throat of Mrs. Mary Smith, a widow, was cut by a burglar while she was asleep Friday night. She was awakened by consciousness of a stinging pain in her neck, and involuntarily raising her hand she felt the keen edge of a knife or razor across her fingers. She screamed, and her son from a room upstairs came to her assistance, but the burglar escaped. The wound was deep, and the severance of the jugular vein was prevented only by the slight obstruction of the strings to which she was tied.

The girl's friends are trying to save her life.

A Female Burglar Arrested.

BALTIMORE, Md., Aug. 5.—A female burglar, about 45 years of age, was arrested after a severe tussle about 12 o'clock last night in the residence of Horace Abercrombie, having effected an entrance through the backdoor. She was known to the police, and was a member of the famous Ripley Red club.

She was captured in the act of robbing the house.

A Woman Fatally Beaten.

CARRINGTON, N. C., Aug. 5.—John Clemon is in jail charged with stabbing a woman to death. The woman was Mrs. John Orton. On Saturday night the friends of all parties met at a picnic and a general shooting occurred, during which Henry Oliver, one of Mr. Orton's friends, was killed. The people in the village have taken sides and more trouble is feared.

A Woman Fatally Beaten.

INDIANAPOLIS, Aug. 5.—Saturday afternoon a rotten pine bridge near this place gave way with a wagon load of lumber pinning the driver. A boy, aged 10, of Marion, Ind., under the timbers, was killed. His mother was not home, but his mother was severely injured.

TWO FREIGHT TRAINS COLLIDE.

One Man Killed, Others Fatally Injured and Several Missing.

ALEXANDRIA, Va., Aug. 5.—A fatal accident occurred on the Virginia Midland road, near Barley's early Sunday morning. Two freight trains collided on a heavy grade. The engines were smashed and the cars almost entirely destroyed. Fireman Fox of Washington, was killed. Charles Davis, the engineer of the south bound train was fatally hurt. He lived at Alexandria. His legs and arm were broken and he was injured internally. A brakeman named Lensei was injured about the head.

Conductor Burnham, of the southbound train, has disappeared entirely.

It is reported that he disobeyed orders in not taking a siding at the bottom of the grade and that the accident is directly attributable to his disobedience. Engineer Hayes and Brakeman M. A. McDonald are missing and are supposed to be under the wreck. Fireman Kelly and Brakeman McLain, both of Alexandria, were also badly injured.

Conductor Burnham, of the southbound train, has disappeared entirely.

HURRAH FOR MACKINAC!

The Old Maids' excursion will leave Marion via the G. H. V. and T. Thursday, August 15.

The Old Maids' excursion to Mackinac and cool resorts of the North, will leave Marion, via the G. H. V. and T. railroad, Thursday, August 15. The ladies having the party in charge, famous for their memorable basket excursion to New Orleans in 1881, have decided, at request of many patrons, to organize a select party for a pleasant trip up the lakes to picturesque Mackinac, the Fairy Isle, Petoskey, St. Sante Marie, and other delightful resorts of northern fame.

The route will be by the G. H. V. and T. to Toledo, thence over the Michigan Central to Detroit, when a change will be made to the steamer, City of Alpena, one of the palace steamers of the Detroit and Cleveland Steam Navigation Company's fleet.

Train leaves Marion at 12:15 p.m., and will arrive in Detroit at 6:30. Supper at Wayne Hotel, opposite depot, then adjourn to the steamer City of Alpena, where the party will occupy their rooms Thursday night free of charge.

Steamer starts at 9 o'clock a.m. Dinner will occur near the St. Clair Flats. Steamer will reach Lake Huron at supper time, pass the awe-inspiring Saginaw Bay at night, leaving Alpena (Sawdust City) in the morning. No further stop is made from there to Cheboygan, and Mackinac is reached about 5:30 in the afternoon. After two days at Mackinac, the party will take the inland route to Petoskey, which promises to be the most attractive part of the trip.

The rate from Marion is \$21.50 round trip tickets, good until October 1st, and including the following side trip: Indiana Navigation company to Petoskey and the Delta Transportation company through the St. Mary's river to the "So."

Meals will cost fifty cents, and rooms, accommodating three persons, \$2.50 each way.

The ladies will limit their party, so tickets must be purchased early.

They Will Be Married, [Ashland Press.]

Some sixteen years ago a man named William Seaton left Mansfield and was not heard from. He left behind him a wife and child, the latter being but a small girl. Nothing being heard from him for years, his wife procured a divorce and married a man named Linn, who died a few years ago. On last Friday Seaton went to where his wife was working. She recognized him at once and fell into a fit. The upshot of the matter is that they are now visiting each other, and he is no doubt offering excuses for his long absence. He is said to have done well in stock business in the wild west, and Madame Rumor predicts an early marriage of the two.

Master Arthur Hinds pleasantly entertained a number of friends at his home on east South street, Saturday evening, the occasion being his birthday. Refreshments were served and all indulged in an elegant meal until a late hour.

The aged Mother Holyster died Saturday evening at 6 o'clock, at the old home, on the hill. She was aged 86 years, and was one of Marion's pioneers. The funeral will take place from the home Tuesday forenoon, at 10 o'clock.

Miss Alice Durfee arrived home today, after seven years spent abroad, and is at the home of her mother, Mrs. Pauline Hummer, on Mt. Vernon avenue. Miss Durfee has pursued her studies mostly in Paris, but has been in many other parts of Europe.

George O'Neil, of the Bee Line freight office, has been promoted to a position in the car account's department in Cleveland, and left to assume his new duties this morning.

—SHAKESPEARE or Bacon?

INVIGORATING and appetizer if taken cold before eating in the morning. It tones up the system, settles a disordered stomach. A gentle, but sure cathartic. If a multifarious cocktail must be indulged in, it will correct its bad effects to stomach and brain. An absolute and sure preventive of sea sickness. Its compounds are closely allied to the gastric juices of the stomach.

An Antidote to Intoxicants.

I taken regularly, fresh and cold, three or four glasses a day, will not only cure the disease, but will not be felt, and excessive dosing can be taken down to simple moderation. I shall keep Clam juice constantly on hand to be served tonic, hot or cold, to my customers. Knowing positively from experience that it will do all that is claimed for it above, I will try in every way to promote its use, as it is not my wish to encourage excessive drinking, and if I can discourage it, I give away freely the juice. Even intol. I will only try to cure.
